

M. ABDUL JABBAR

108/II, 5th STREET, OFF KH-E-MUHAFIZ,
DHA PHASE VI, KARACHI

Professional Journey

M. Abdul Jabbar is bachelor's in engineering, specialized in Power Systems and is a certified Safety Engineer. He is the Honorary Consul General to Ukraine. Having over three decades of experience of governance in engineering industries, power generation, gas utilities and has represented private sector before public sector on matters of trade and fiscal / monetary policies including interventions / participation before / in NEPRA and in International Organization on Standards and Economic development.

M.A Jabbar always believe in key attributes of innovativeness, quality management, long term investment value, social responsibility, employee talent, quality of products and services, financial soundness, use of corporate assets, and effectiveness in doing business globally, that lead to competitive advantage. Beside this I am a strong advocate that first our companies must have strategies "of incredible focus on using technology to understand their customers, reduce costs, reduce inventory, and speed up product delivery. Second, they should continually innovate and invest in ways to differentiate their products, to be well known for game-changing products. Also, they should continually introduce small improvements.

Moreover, M. Abdul Jabbar is the Chief Executive of Qaim Automotive Mfg. (Pvt) Lt. He, has more than about three decades exposure including of being director of Public listed/Public Interest Companies and Member of the Board of Pakistan Standard Quality Control Authority Ministry of Science and Technology. Remained an active participant on trade and development on policy front of the Country. Areas of special interest including but not limited to are policy development, corporate governance-as per international best practices and development economics.
