

Please follow the instructions for viewing the simulations. There are separate simulations present in their respective folders of:

- Respond to RFx
- Respond to Auctions
- Supplier Registrations

The following details the steps for downloading the simulation of **“Responding to Auctions”** same process is true for the other two.

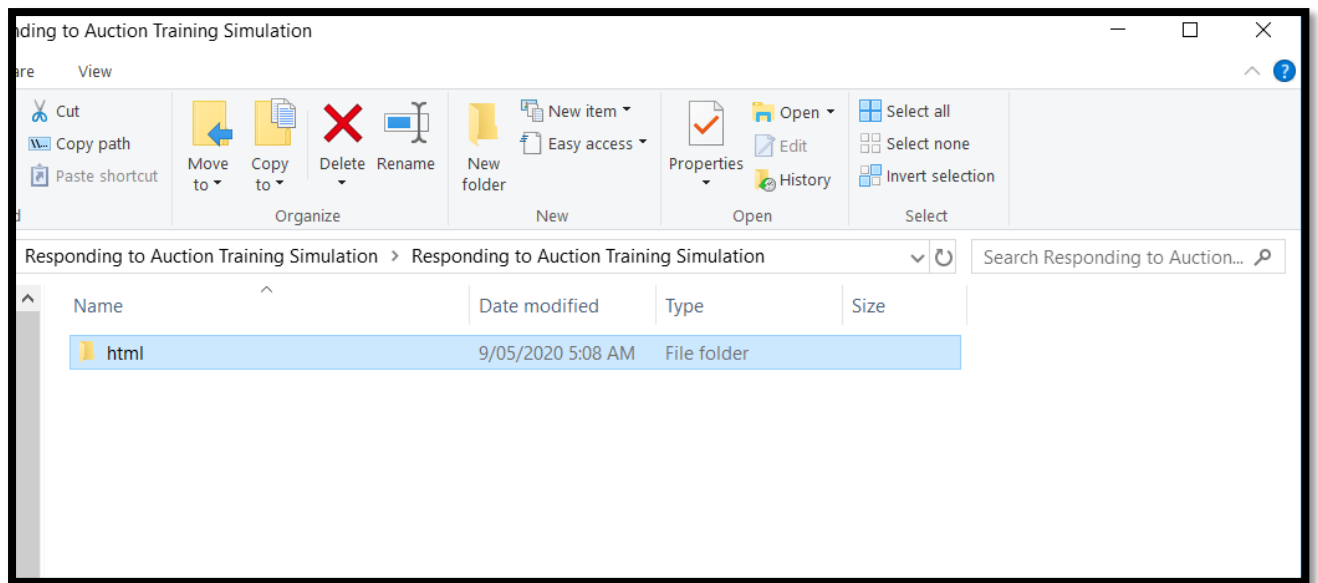

Step 1:

Download the folder named **“Responding to Auction”**

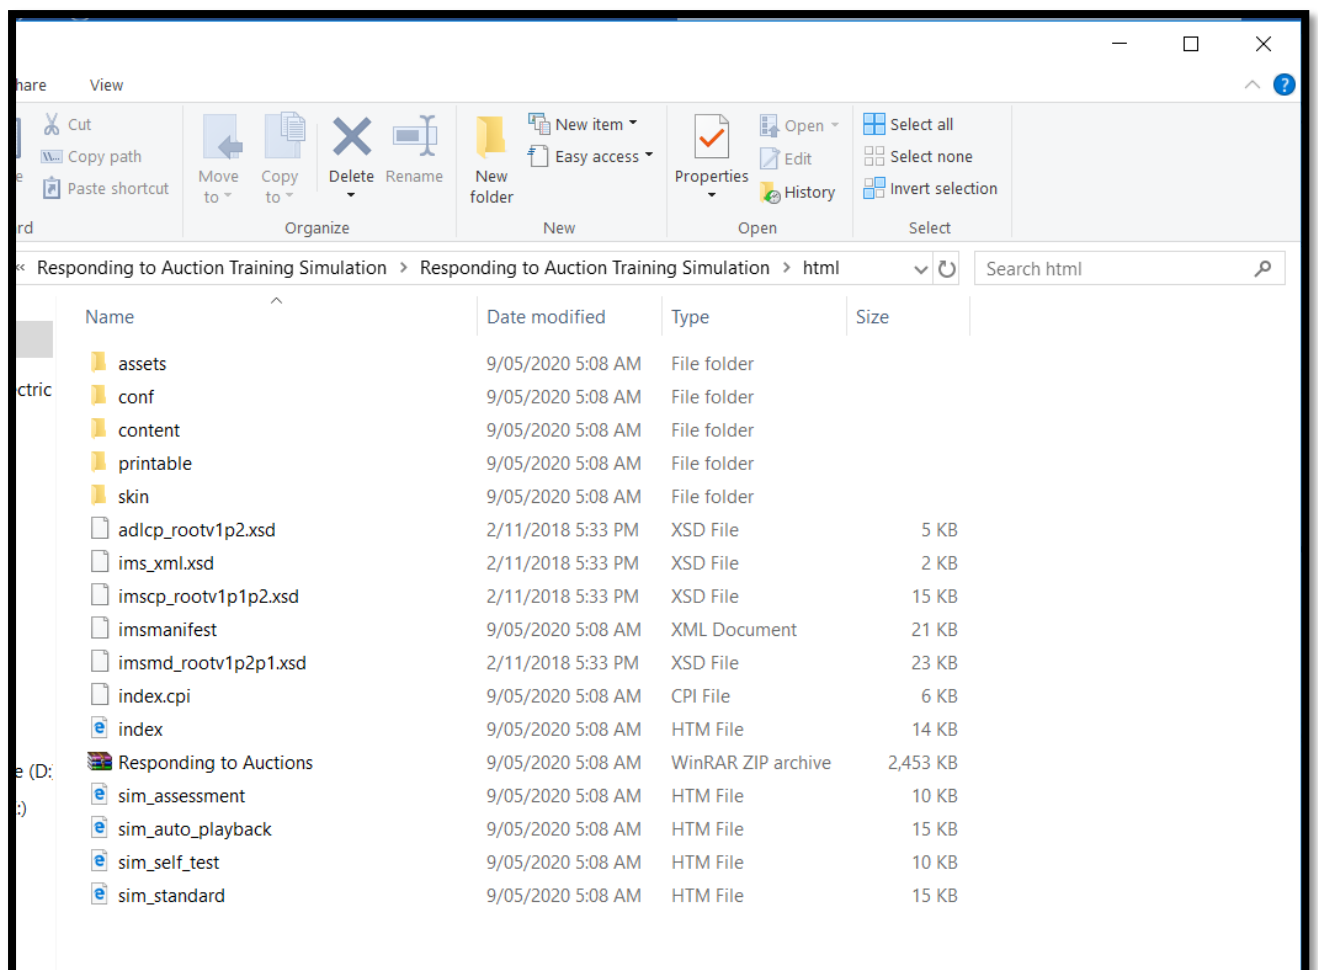

Step 2:

Open the folder on your desktop, open the folders till you reach the folder named **“html”** as shown in the below screenshot.

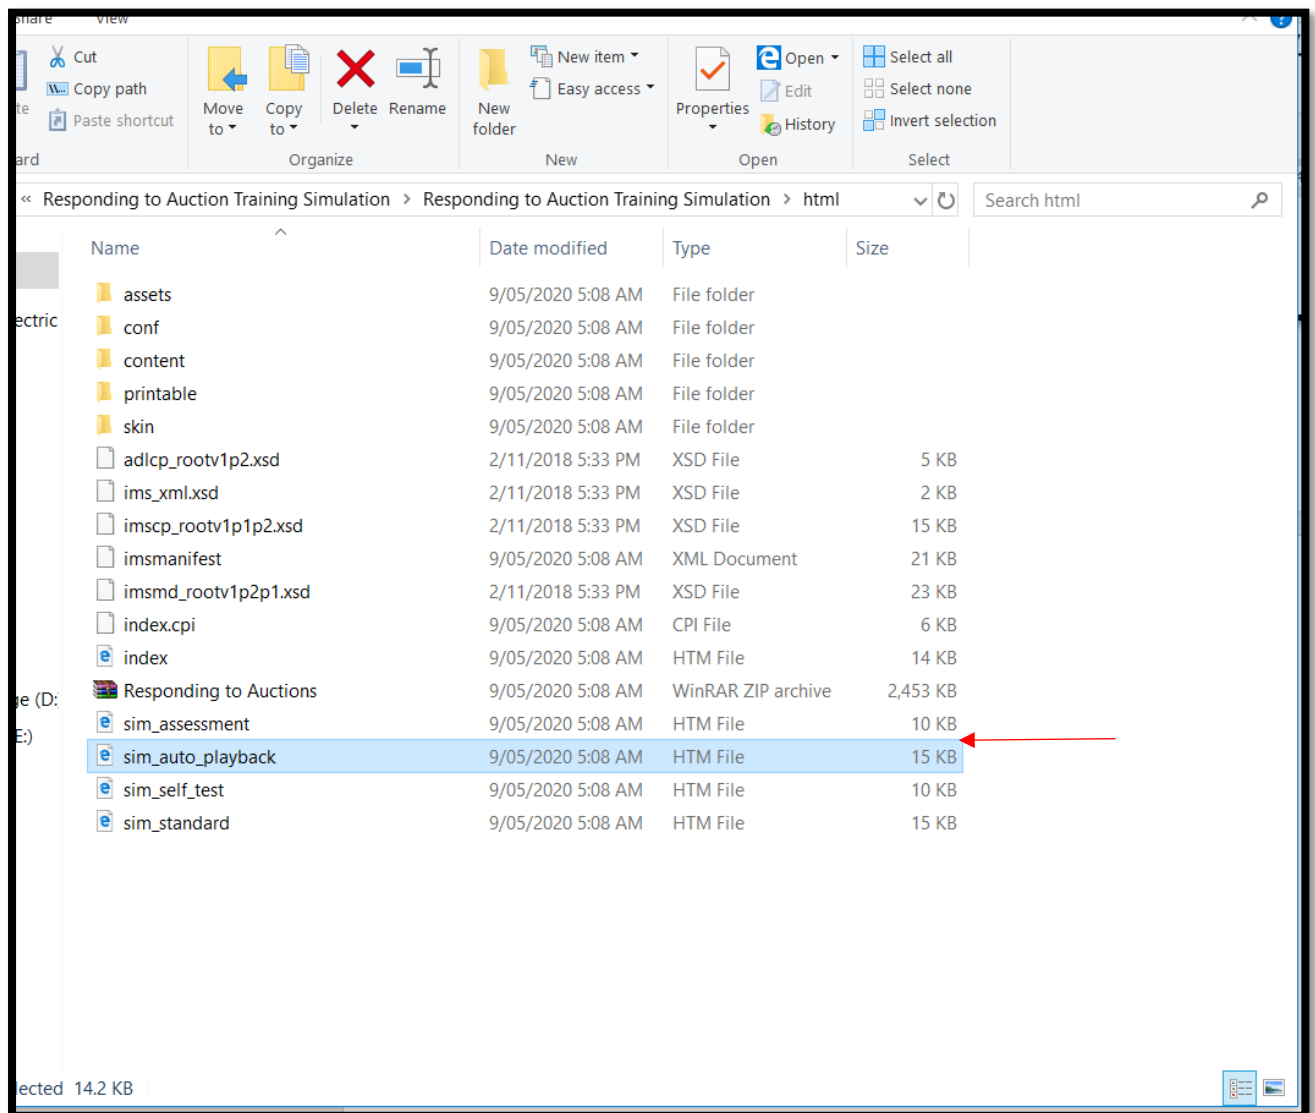

Step 3:

Open the folder "Html" and you will see different files and folders.

Step 4:

Double click the file named “**sim_auto_playback**” this is the simulation file.

Step 5

The file will open in your default internet browser, if you don't have one, you need to install it first. You might need to see which browser works for you. (It should work fine on Mozilla, Internet Explorer, Edge and Chrome)

Step 6

The simulation will run on your browser. You can watch the simulation step by step or continuously based upon your preference. Please note that the simulation does not have a voice over.

Events

| Title | ID | End Time | Status |
|--------------------------------|--------------|--------------------|--------|
| Status: Completed (5) | | | |
| Sourcing Project RFP | Doc152732574 | 10/2/2019 4:17 PM | RFP |
